He said that "for the honor of our dag, so dear to us alt, I am willing that the defence of our government and flag should be accorded to all ships of Amercan ownership wherever built." The President may be willing to contract for the defence of the government and flag with foreign slop builders, but the conensus of American opinion is decidedly hostile to such a policy. In Speaker Crisp's State. The remarkable condition of affairs in the tenth Congressional District in Georgia, previously referred to in THE WHIG, s commented upon as follows by the Chicago Inter-Ocean: Congressman J. C. . Black, of the Teuth District of Georgia, occupies a unique position as a successful candidate for re-ejection. He has been re-elected, as he admits, by most glaring frauds, and yet he ceclines to agree to a commission which shall investigate the votes cast at the recent election with a view to purg ng the ballot boxes of fraudulent votes. Mr. Black's opponent was ex-Congressman TomWatn, and that gentteman made this proposition just after the result was declared. Black was forced to admit that there had been fraud at the polls, but declined this No. 2 Smith's Block. West Market 89 simple method of ferreting out the fraud. For years it has been known to the medical profession that the extract of the balsamic trees possesses healing, as well as protective qualities of great value. For this reason people who bave been in the incipieut stages of primonary disease have been advised to go into the pine forests for the recovery of their health.

But it is not possible for everybody to go to the pines for healing (it is, however, nossible to bring the very essence of the pines to everybody, rich or poor, who for one reason or another cannot go from home in search of health. This is what is done by WHITE PINE COUGH BALSAM, a scientific preparation containing among other medicinal properties an extract of White Pine Bark, together with that of Wild Cherry Bark, put up in the form of a syrup, and endorsed by the most eminent medical authority. It will relieve the most persistent irritation connected with pulmonary disease, destroy all agents which produce the irritation, heal the affected parts and prolong life.

It is the best cough medicine in the market. NEW YORK, Nov. 30. Chi sch Mary Jenness, Eaton, St Pierre, Mart.

After Webber had somewhat recovered his strength Capt Bolier of the night watch, took him out but he failed to identify the place where he was assaulted, and no one could be found in the vicinit, who knew anything about the sflair.
